

BIOIONIX

a more perfect solution

Bleach (hypochlorite) is misunderstood. Did you know that Bleach loses its disinfection power within 6 months?

- ⚡ FDA lists hypochlorite as the #1 most recognized sanitizer.
- ⚡ HOCl is THE sanitization power of bleach.
- ⚡ BIOIONIX® focuses on the HOCl part of bleach, which is 100x more effective.

100X
more effective
than chlorine
bleach

**Non-
Corrosive**

Understanding Chlorine

The power to make your own disinfectant.

Chlorine Species Chart

HOCl = Sanitizer

BIOIONIX® is the ONLY industrial scale producer in the world.

Artificial Immune System

Our proven, approved, and patented technology uses non-chemical, natural SuperOxidants™ to disrupt and destroy the DNA and RNA of pathogens!

BIOIONIX

a more perfect solution

3-Tier Solution

The BIOIONIX® three-tier technology acts as an artificial immune system that advances food safety.

⚡ Tier 1

PATHOGEN DESTRUCTION

BIOIONIX SuperOxidants™ safely destroy pathogens that flow through our first-tier patented chambers.

⚡ Tier 2

CONTINUOUS DISINFECTION

Release of an all natural, disinfection with controlled concentrations of hypochlorous acid (HOCl) circulates, providing continuous disinfecting properties that are 100 times stronger than bleach and safer to use and handle than other toxic chemicals.

⚡ Tier 3

FOOD SAFETY VALIDATION

The third tier and most important part of our patented Technology is the BIOSAIF24/7 Software. It's the brains of the artificial immune system that keeps everything in balance and operating 24/7, providing data intelligence.
